

Choosing a Consent Type in HIFIS

Consent is easily one of the most important pieces of input in HIFIS. Without it, we would not be able to serve the ones who need our help. There are a few different options, though. So what do you choose? Read this guide to see which Consent will work best for your Client's situation.

1.) Coordinated Access + Explicit Consent(Pick this!)

If there was a default consent to strive for every time this consent would be it!

Coordinated Access gives the Client access to many more resources, and could be the difference between them being housed from the BNL, or not.

If a Client seems unsure about what consent to provide, let them know this is their best option to access the most supports.

Client

Consent Type	Select an option	★
Consent Start Date	<input type="text"/>	📅
Last Name	Explicit	★
First Name	Declined - Anonymous	★
Middle Name	Inherited	★
	Coordinated Access + Explicit	

2.) Inherited Consent

If your Client is a minor, Inherited Consent is the correct option to choose.

This means the minor will inherit the consent from their Family Head.

Client

Consent Type	Select an option	★
Consent Start Date	<input type="text"/>	📅
Last Name	Explicit	★
First Name	Declined - Anonymous	★
Middle Name	Inherited	★
	Coordinated Access + Explicit	

3.) Explicit Consent

The Client Agrees to give Consent for their information to be collected and shared in HIFIS, but does NOT wish to be a part of the Coordinated Access List. This consent should rarely be chosen.

You can share with the Client that any numbers the government uses is anonymized!

Client

Consent Type	Select an option	★
Consent Start Date	<input type="text"/>	📅
Last Name	Explicit	★
First Name	Declined - Anonymous	★
Middle Name	Inherited	★

4.) Declined-Anonymous

If your Client does not want to be seen at any other provider, this is the consent option you would choose. It is important to note, this consent will keep your Client off of the Coordinated Access List, and potentially remove them for resource opportunities!

Client

Consent Type	Select an option	★
Consent Start Date	<input type="text"/>	📅
Last Name	Explicit	★
First Name	Declined - Anonymous	★
Middle Name	Inherited	★
	Coordinated Access + Explicit
