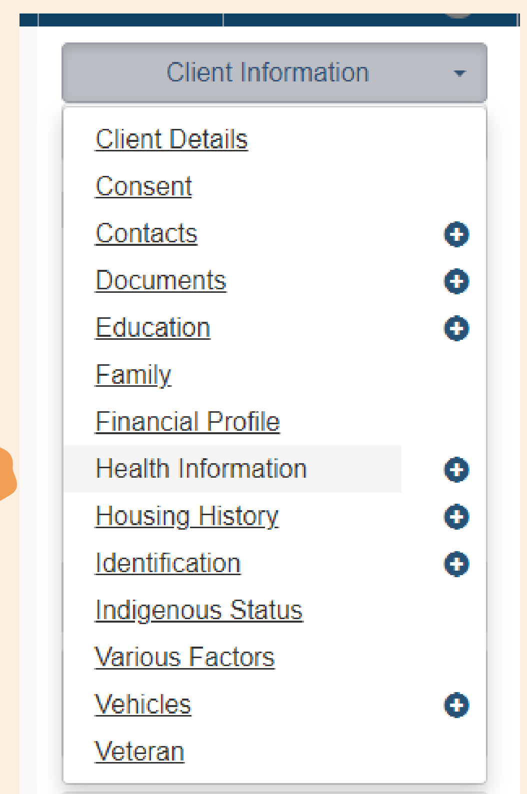
# Adding Client Health Information

*Does your Client have an underlying Health Condition? Using the Health Information Module is a great way to keep track of various Health issues, and requirements.*

## 1.)The Client Information Tab

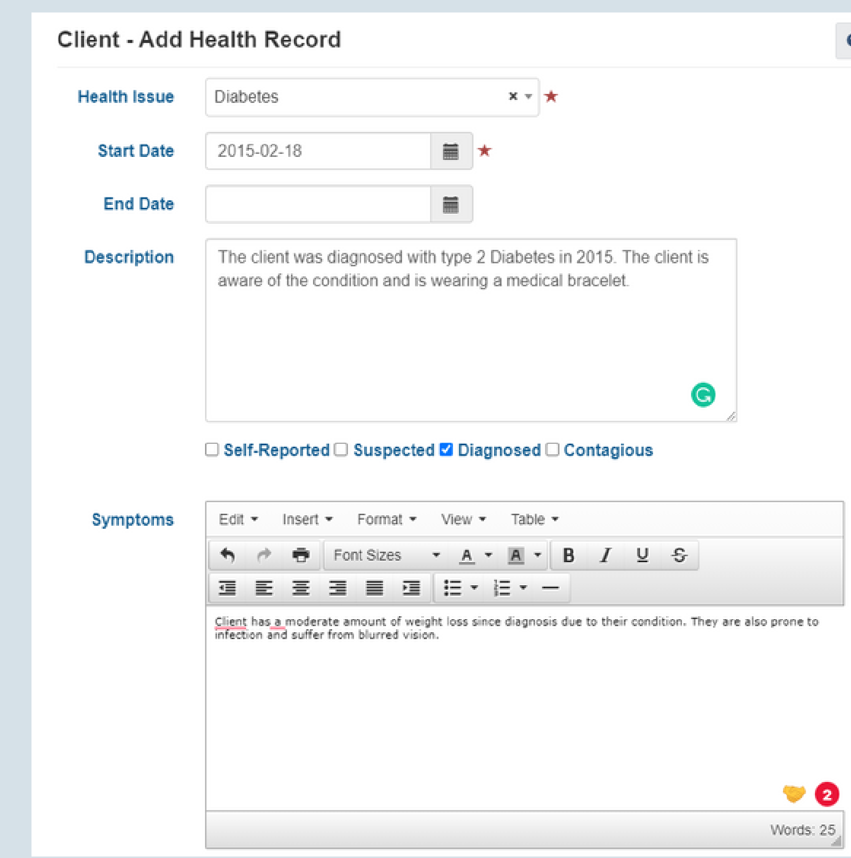
From the Client Vitals Page, Click Client Information and then the Health Information



## 2.) Adding a Health Record.

From the Health Issue Tab, Click the Add Health Record to get started.

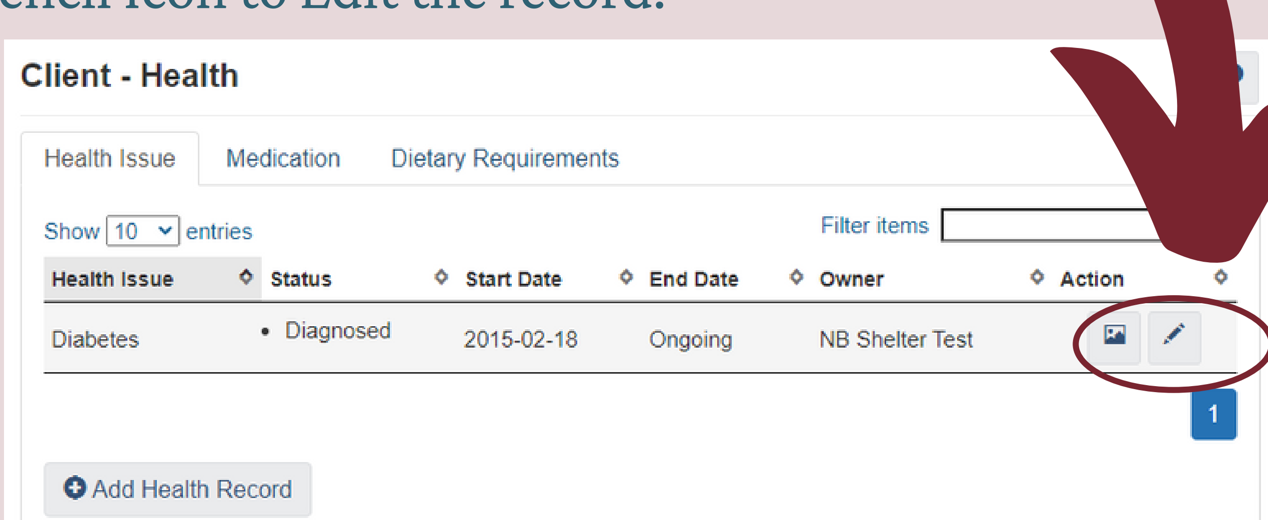
Select the Client's health issue, and fill out the details as accurately as possible.



## 3.)Save your Record

Once all of the details are filled in, click the Save button at the bottom of the page to be taken back to the Health Tab.

Does something look inaccurate? Click the Pencil Icon to Edit the record.

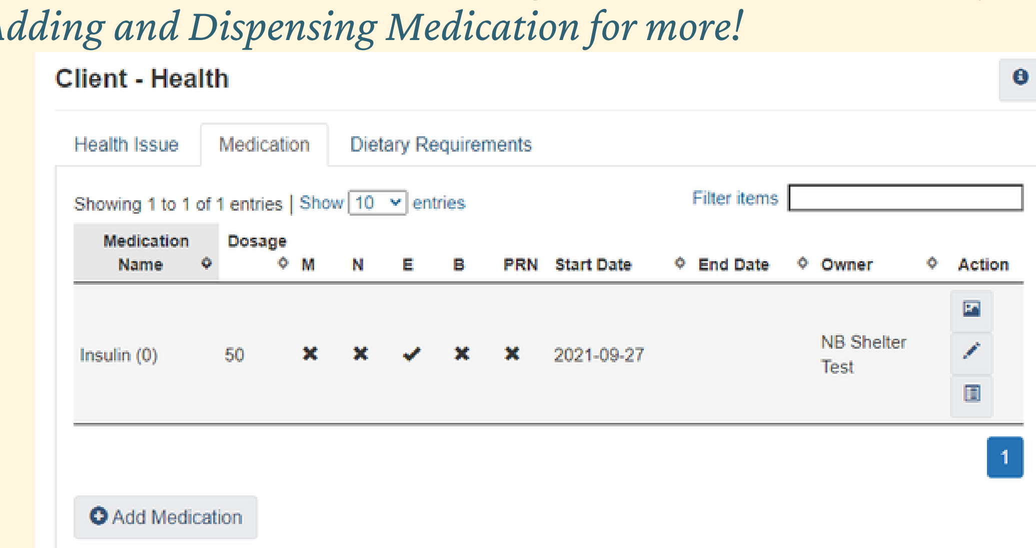


## 4.)Medications

There is also the Medication tab from The Client Health page.

Here you can view and edit medications the Client is receiving.

*Want to learn more about adding Medications to a Client's file? Check out the Adding and Dispensing Medication for more!*



## 5.)Dietary Requirements

Does your Client require a special diet due to allergies, health, or religious reasons? You can add any Dietary Requirements using this tab.
